## MINIMIZE THE RISK OF SLIPS, TRIPS, AND FALLS IN THE HARSHTEST WORKING ENVIRONMENTS WITH PROVEN HIGH TRACTION SOLUTIONS

### ULTIMATE IN SAFETY

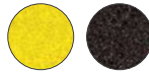

TRAX™ anti-slip covers eliminate slips, trips and falls in any industrial or commercial environment by ensuring maximum traction for workers and pedestrians in numerous applications such as stairs, ladders, and walkways.

UBS Industrial Solutions is the authorized distributor of TRAX™ anti-slip products for North America. Our products and custom applications are currently providing safer footing every minute of every day for thousands of people throughout the United States and Canada.

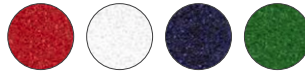

By incorporating the separate elements of the finished product into one seamless fiberglass composite material, we build the strongest and most durable product available on today's market. Additionally, TRAX™ anti-slip covers can be easily maintained to preserve their smart appearance and effective non-slip qualities.

### COLORS

TRAX™ anti-slip covers are available in a variety of colors: (graphic with colors)

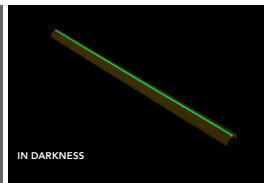

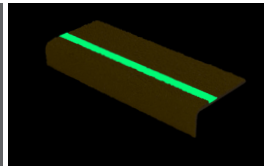

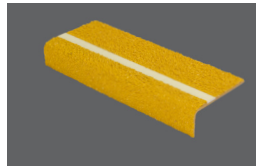

Safety Yellow, Black

Specialty colors:  
Red, White, Blue, Green

### LUMINESCENCE

A fully embedded, photoluminescent strip can be included with all TRAX™ products to provide glow-in-the-dark capabilities and critical visibility of emergency evacuation and egress pathways in any facility.

Official North American Supplier

With TRAX™ products, you simply get the toughest, most durable, and long-lasting industrial anti-slip solutions available anywhere in the world.

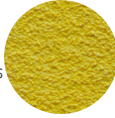

## GRADES

TRAX™ anti-slip covers come in four grit sizes to fit any application: (graphic with grit and application)

**FINE**  
Commercial buildings, swimming pools

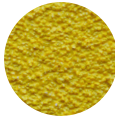

**OFFSHORE**  
Oil platforms, heavily soiled areas

**INDUSTRIAL**  
For most industrial applications

**EXTREME**  
Heavy snow and other extreme applications

## CUSTOM MESSAGING AND LOGOS

Safety messages, warnings, directions, or company logos may be added to any TRAX™ Step Cover or Walkway Cover as needed. These can remind workers to always think of safety or warn of any hazards or hazardous areas to which they may be exposed or provide important directions to egress pathways during an emergency.

## TRAX™ Anti-Slip Ladder

### Rung Covers

Completely eliminate the risk of slipping on smooth, bare ladder rungs with the simple installation of TRAX™ Anti-Slip Ladder Rung Covers, featuring a gritted surface that provides more grip for hands or feet, whether dry or wet. These are available for both round and square rung designs.

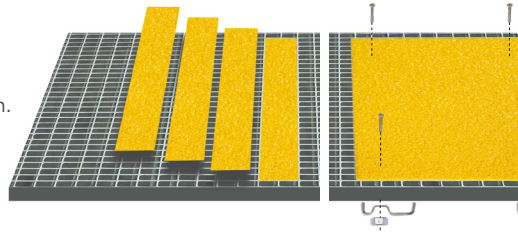

### TRAX™ Anti-Slip Step Covers

TRAX™ Anti-Slip Step Covers eliminate slips, trips, and falls for workers by ensuring maximum traction on stairs in your facility. When placed over the leading edge of the stair tread, a TRAX™ Step Cover will provide a bright and contrasting line that defines the edge of every tread and create a robust high traction zone exactly where it is needed.

### TRAX™ Anti-Slip Walkway Covers

TRAX™ Walkway Covers are lightweight yet incredibly strong anti-slip sheets that can be custom shaped or cut to almost any configuration. They are installed over your existing walkway surface providing a fast, permanent, and highly effective way to enhance safety and clearly delineate dedicated safe walkway ZONES.
